VILLAGE OF NORTH UTICA PRESS RELEASE

This is an updated message from the Village of North Utica regarding the Illinois River flooding.

Storms experienced last night produced rainfall amounts that were less than originally projected by the National Weather Service, however, the Illinois River remains above Flood Stage and LaSalle County still remains under a flood warning at this time.

The National Weather Service has forecasted a chance for rainfall over the next 7 days that could impact the Illinois River area.

We are still urging all businesses and property owners in the affected areas to remain informed, alert, and ready in the event that weather conditions change.

Also, to update your information or add additional phone numbers to the Code Red Notification System you can access the sign-up sheet online on our website at www.utica-il.gov under the 'LIVE' tab on our Home Page.

Again, please remain alert to weather conditions throughout the next several days and be safe.

Thank you
