April 11, 2016 Code Red Notification:

This is a message from the Village of North Utica.

Work continues on the 2016 Mill St. Beautification project and will be concentrated on the east side of Mill St.

Flaggers will be in the area and one-lane traffic can be expected on Mill St. from Church St. to Canal St. All businesses located on Mill St. will remain open for their regular hours as usual.

Due to the water main work that is necessary as a part of this project, the water will be shut off intermittently throughout the day, beginning at 8 am. This will affect only those areas that are located south of the I & M Canal.

A boil order will begin at that time and will remain in effect until further notice. A notification releasing the boil order will be given through the Code Red notification system when the boil order has been lifted. Again, this will only affect areas south of the I & M Canal.

Regular updates on the project, along with a tentative weekly schedule can be found at the following locations:

It will be posted on the window at Country Village Studio located on the corner of Mill & Church St.

It will be posted at the Village Hall Office and on our website at www.utica-il.gov under 'Announcements - on the 2016 Mill St. Beautification Project'

We encourage everyone to continue to support our local Utica businesses as we work toward the completion of this exciting project!

Thank You !
